

Dear \_\_\_\_\_,

CONGRATULATIONS! We have been notified that you are eligible for Commonwealth Care, the new State Health Insurance program. Because the program is new, there has been some confusion about enrolling. Call us if you need help.

**IMPORTANT: You CAN continue to be a patient of CHP HEALTH CENTER no matter what you decide/select for insurance. We have ALWAYS served both insured and uninsured patients.**

The following information may be of help to you:

1. According to the notice we received, you will be eligible for insurance: \_\_\_ at no cost  
\_\_\_ at an affordable premium rate
2. You should call as soon as possible (1-877-623-6765) to enroll in **Commonwealth Care**, selecting the [REDACTED] plan, as it is the only plan widely accepted here in the Berkshires.
3. To select **CHP Health Center** as your primary care physician, request: **Susan Johnson (with a J !)** here at 29 Lewis Ave., Great Barrington. You can still be seen by any of our providers.

We are happy and proud that our state is offering such good options for patients who previously might not have had the opportunity to have medical insurance.

Sincerely,

Ms. Scottie Mills  
Patient Assistance, CHP Health Center
